### Web developer

### About me

I'm a bachelor's degree graduate from Turku University of Applied Sciences. I've done internship in TUAS from Feb 2018 to Sep 2019. During my internship, I worked as project manager and backend developer for internal project and worked as junior developer on customer project which was built on laravel framework.

I'm always energetic and eager to learn new skills. I'm a talented, ambitious and hardworking individual, with broad skills and adept at handling multiple tasks on a daily basis competently and also good on team work.

### Education

#### ● Bachelor of Information and Communication Technology

From September 2016 to July 2021 [Turku University of Applied Sciences](#) Turku, Finland

### Work experience

#### ● Developer

From February 2018 to September 2018 [LSJH](#) Turku University of Applied Sciences

It was a customer project that came for TUAS. It was a big data project on laravel. I was working on login and authentication of this projects

#### ● Project Manager

Since September 2018 [theFirma](#) Turku University of Applied Sciences.

Project Gate was the internal project of theFirma, theFirma handles projects for TUAS and helps students with internship. Semantics UI, express, nodejs and mongodb were used on this project and I was working as a project manager and also as a backend developer.

### Skills
